**YOU'RE IN BEAR COUNTRY!**

**GARBAGE KILLS BEARS** - If bears are allowed to eat garbage, they can become a nuisance and may have to be killed. Use bear-proof dumpsters. Do not burn food scraps or grease in the campfire.

**NEVER FEED BEARS** - Intentionally feeding bears is illegal in N.Y. because it may condition them to approach humans.

**STORE FOOD PROPERLY** - Clean up food and garbage after meals. Store all food, including pet food, in bear-proof containers, or closed vehicles.

**SEPARATE COOKING/EATING AREAS FROM SLEEPING AREAS** - Bears may be attracted to food or other strong odors. Keep these odors away from your sleeping area. Clean up and store clothing soiled with these odors before going to bed.

**LEASH AND CONTROL YOUR PET** - Uncontrolled pets antagonize bears.

**RESPECT A BEAR'S SPACE** - Never approach a bear to take pictures. A bear may perceive your advance as a threat.

**IF YOU ENCOUNTER A BEAR** - Remain standing. Maintain eye-to-eye contact. Back away slowly, speaking in a soft, confident voice. Don't run or climb trees. Report bear encounters to camp management.

**PREVENT FOREST FIRES**

and save the trees, the soil and thousands of other GREAT things we love. FIRE STARTERS and the spread of forest fires are a danger to our lives and property. Good forests are our life.

**BE CAREFUL**

Match, Light, Cigarette, Pipe, or Stove. NEVER use them in the woods. Camp Fire Cut regulations of Forest Service and National Park Service apply. Do not use any fire in the woods. Do not use any fire in the woods.

**BEFORE LEAVING**

Check for any fire hazards. Do not leave any fire burning. Extinguish and dispose of your matches in the woods.

**IF YOU SEE A FIRE NOT UNDER CONTROL**

Call the Fire Department. Do not try to fight it yourself. Do not try to fight it yourself.
